Urban Land with Sea View: 6 Townhouses /

Apartments / Single-Family Home

Ref: 86588418 | Faro > Vila do Bispo > Vila do Bispo e Raposeira

€355.000

Business type	Sale	Property type	Land
Area	1.340 m2	Land area	1.340 m2

Description

Located in one of the region's fastest-growing coastal corridors, this urban plot of 1,340 m² represents a rare opportunity to acquire seafront land at a price significantly below market value.

Its elevated location offers uninterrupted panoramic views and places it just minutes from the beach, making it the ideal choice for high-demand residential development. The surrounding area is experiencing rapid infrastructure growth and increased investor activity—a combination that supports both short-term appreciation and long-term returns. For investors focused on capital appreciation, portfolio diversification, or returns based on real estate promotion, this plot serves as a strategic entry point into a market where land scarcity and coastal attractiveness continue to drive value.

The plot allows a gross construction area of up to 900 m², with a footprint of 500 m², and is licensed for the construction of up to six townhouses or a larger apartment project. The location perfectly balances tranquility with proximity to the sea and essential urban centers. It is just 6 km from the crystal-clear waters of Zavial Beach and 20 km from the world-famous Amado Beach. Daily conveniences are within reach, with Lidl and Aldi supermarkets just 5 km away, while the historic village of Sagres is 12 km from the property. For those wishing to explore the Vicentine coast, Arrifana is 46 km away. Accessibility is a key point, with the plot located 107 km from Faro Airport and 284 km from Lisbon.

Benefiting from unobstructed sea views, natural surroundings, and excellent solar exposure, the land is perfectly suited for projects that prioritize quality of life and contemporary architecture integrated into the landscape. All necessary infrastructure is already available on site, including water, electricity, basic sewage, public lighting, and road access with sidewalks. The land is classified as urban, with viability for single-family residential construction or an urban investment project up to one floor above ground, and is currently exempt from energy certification. It has a favorable opinion from the Vila do Bispo Municipal Council.

Total Area: 1,350 m²

Construction Area: 900 m²

Footprint: 500 m²

Access: Includes access to dedicated municipal parking for this development
