Description

What if owning a home in the Algarve no longer meant compromise?*

For years, buyers have become accustomed to making choices.

Location or build quality.

Beautiful design or low running costs.

Modern architecture or year-round comfort.

This villa in Praia da Luz was designed so you don't have to choose.

Built using CLT (Cross-Laminated Timber) technology, a construction system trusted for decades in Austria, Germany and Switzerland, where building quality is held to some of the highest standards in Europe.
