Description

This stunning newly built residence in Moncarapacho redefines the concept of luxury, featuring an entrance system with two high-security doors, private garage for one car, and an elevator prepared for wheelchair access on all floors. The ground floor offers a dedicated cinema room with complete infrastructure for screen and sound (including connections for woofer and subwoofer) and pre-installation of air conditioning, as well as a functional laundry room or secondary kitchen. On the first floor, the elegant porcelain tile flooring and integrated air conditioning set the tone for an open-plan living area and a designer kitchen equipped with high-end appliances and an innovative extraction system (with no need for a visible chimney). The exterior oasis includes a salt water pool and BBQ area, while the second floor accommodates three bedrooms with fitted wardrobes equipped with sensor lights and two modern bathrooms. Built for maximum efficiency, the villa features exterior thermal insulation in "Kapoto" (ETICS), solar panels, aluminum window frames with 6mm thermal cut and centralized electric blinds with controls at entry and exit points, all topped by a rooftop terrace with water and electricity points.
