Description

There are many plots on the market. Few are already ready to move forward.

In a market where building in Algarve has become increasingly complex, this lot stands out for what is now most valuable: location, time saved, and urban planning security.

Located on Rua da Estação, in Luz de Tavira, this land has an approved project for the construction of two semi-detached houses, allowing for faster and more confident progress in one of the most sought-after areas of Sotavento Algarve.

A few minutes from Ria Formosa, regional beaches, and the historic center of Tavira, this is a rare opportunity to develop a modern residential project in an authentic, peaceful environment that is increasingly valued by both national and international buyers.

Today, in Algarve, true luxury is no longer just about location.

It is about finding a project ready to proceed.

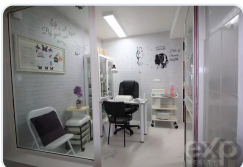

Ideal for investors, builders, or buyers looking to create patrimony in an area with high residential demand and significant potential for future appreciation.
